## Hive Calendar

### October/November: Prepare for Winter

Install mouse guards, tip hives slightly forward to ensure dry conditions. Formic Acid, Coumaphous, and Apistan must be removed before winter. Feed or combine any hives that are too light to survive until early next summer. Bottle and sell honey and beeswax. Evaluate this year's hive management results and plan for next year.

**Nectar flow/Pollen:** A few minor flows, Heather will bloom in November

**Main Meeting: 7:30 – 9:00 pm: Honey Tasting and Judging and Cooking with honey** Please bring a sample of your honey so we can all taste and enjoy it. There'll be samples of different varieties of honey for you to try. Doris Mech will share her cooking secrets and cookbook "Joy with Honey".

## Announcements & News

### November meeting: Vote and Eat!

### Mark your calendar 11/16/10

PSBA Trustee Elections and potluck Holiday Party in November  
This is a great time to share food and laughter with your fellow beekeepers. Elections for officers of president, as well as five trustees for 2011-2012 will be held. If you are interested in an officer or trustee position, please contact a current officer for more information and to apply. The apiary manager position is also available. Please contact Tim Todd (current apiary manager) with questions or interest in the position. During the potluck we will eat and have our elections and share a tall tale or two about our beekeeping year. Each family brings a food item to share. The club will provide plates, plastic silverware, cups, napkins and beverages. It is a lot of fun- we hope to see you there!

Downstairs at Town Hall; enter on Seneca Street.

## CCD in the news:

Recently, highlighted in the New York Times was a study Linking Iridovirus (IIV) and Nosema to Honey Bee Colony Decline, claiming the "bee mystery" solved. Read more <http://www.plosone.org/article/info%3Adoi%2F10.1371%2Fjournal.pone.0013181>

A subsequent article in Fortune Magazine noted that a source of funding for the study reference in the New York Times article was Bayer Corporation, a leading producer of neonicotinoids (a class of neurotoxins that kills insects by attacking their nervous systems). Read more
